

You've Got The Spacers.
Here's A Handy Guide to Getting the Right Fit.

Getting the right fit.

Does your dispenser look like one of these?

Other dispensers are unaffected by the width change.

If so, four solutions are available:

To order any of these GP solutions, contact your GP Sales Rep or call 1-866-HELLOGP (435-5647).

- 1** Free universal dispenser spacers included in bag.
(SKU #55550)

Installation directions on next pages.

- 2** Compact® dispensers

- 3** Replacement dispensers that use 4.0" - 4.5" tissue
(SKU #57120/01, SKU #57220/01)

- 4** 4.5" tissue options - upgrade to other GP brands

Getting the right fit.

Does your dispenser look like one of these?

Other dispensers are unaffected by the width change.

With Bar

1 Open dispenser swing arm.

3 Spacer in place. The loose fit is OK, allows roll 'break' to work properly.

Note: The double roll version with bar functions in the same manner on both sides.

2 Slide spacer to the opposite end of dispenser.

4 Install 4" roll and close dispenser.

Without Bar

1 Open dispenser.

2 Attach spacers to outer arm hubs of dispenser.

3 Photo shows spacers in place.

4 Install 4" rolls and close dispenser arms.
